

# ChildSafeAI

By Bunalip, framacha, Flomo11

Idk dude,  
that was  
kinda  
offensive...

# The Internet Isn't Child-Safe by Default

- **limited** Parental controls
- Filters don't cover **dynamic** or embedded content like **SVGs** or **JavaScript-rendered** text.

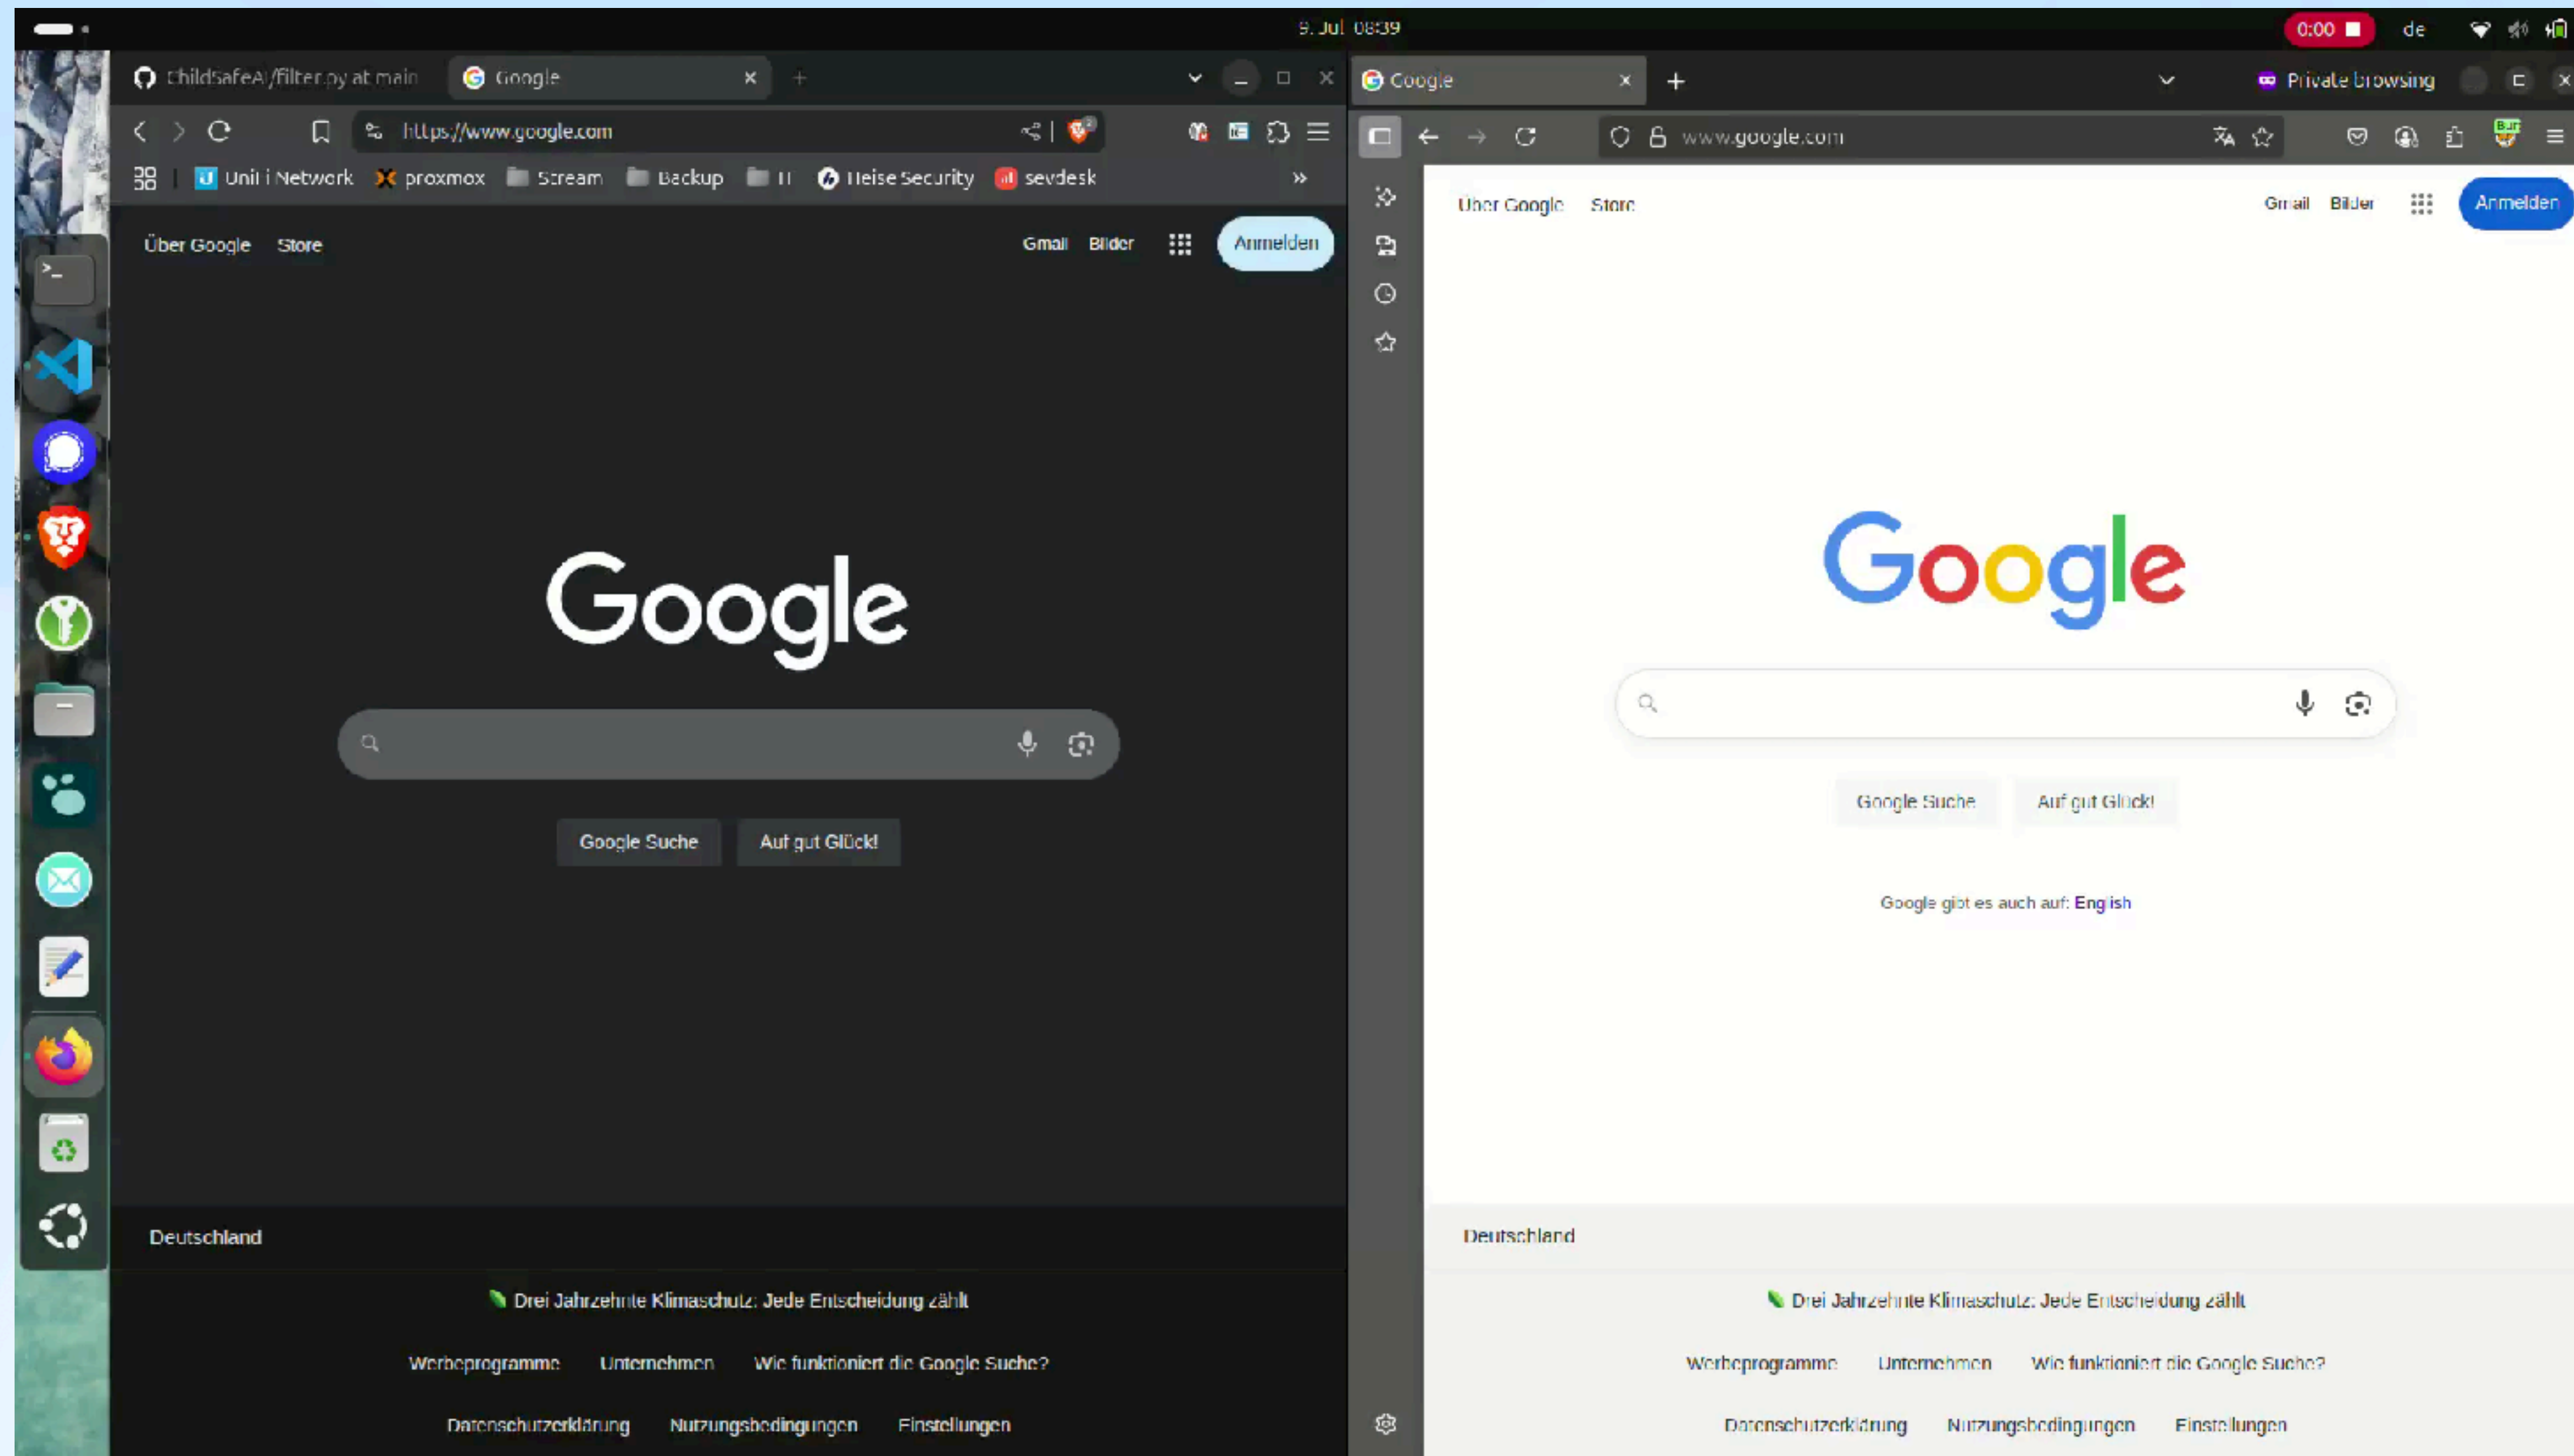

- **mitmproxy**- intercept HTTP(S) traffic.
- Filters **HTML, JavaScript, forms, and URLs**.
- Replaces **offensive** terms
- censors **SVGs and DOM mutations**.

# Our Prototype- Smart filtering with JS+ Python

- Python: URL & form filtering
- JS: Blur text, block SVGs
- Dynamic DOM support
- Easy proxy setup

# What's next

- Browser extension
- Keyword list UI
- AI content detection
- Multilingual support
- One-click install
